PROTECTION OF DOMAIN NAME

All names are protected against deliberate copying ie "cyber squatting" and we undertake all legal action and court costs to protect your domain name at no cost to you. These costs can add up to many thousands of pounds and it is essential that you protect your internet business activity by registering your important domain name through us. The protection involves specialist legal representation and filing dispute resolution cases with the World Intellectual Property Organisation (WIPO) for gTLD names such as .com with Nominet Dispute Resolution Service for UK names such as .co.uk and the Czech Arbitration Court for .eu names.

Do you require additional Certificates for other partners or locations.

Limited Company Formation

Our brochure explains the incorporation procedure of forming a limited company or Plc in your own choice of name or selecting one from our range of ready-made companies. We also provide same day Incorporation and formation of Charity and Guarantee companies, Limited Liability Partnerships, Company and Directors searches.

Trade Marks

Our brochure explains how we can register a brand, product name or logo. We search against the 1 million registered Trade marks to see if the name is available for use and then if required we can register that Trade Mark. We can also register Trade Marks valid in all EU countries and worldwide.

Business Name Registration

Our brochure explains how we can register and protect your business name from being used by other businesses. We check that the name you wish to register is legal and unique to your trading area. Once we are satisfied that your name can be used and that it does not conflict with an existing name, we will add it to The National Business Register database and prepare your certificate. This confirms the name that we will protect against "passing-off" and, when displayed, it will meet all the display requirements of the Companies Act.

Domain Names, Webspace, Hosting and Email addresses are renewable as stated.
