## STEP 5 SHARE CAPITAL

Share Capital means the size of the Company, not its liability. Nationwide forms all Newly-formed PLC's with a Share Capital of £50,000 unless you require a higher figure. If so, please insert the higher figure here (there is no extra charge for this).

Share Capital  £

## STEP 6 DIVISION OF SHAREHOLDING

You need to issue 50,000 shares. The total number of shares actually issued sets the limited liability of the shareholders. The division of shares between the shareholders establishes the proportion of the Company that each shareholder owns (see examples below).

The following examples illustrate these points. Be sure to enter the total number of shares issued in the LIST OF SHAREHOLDERS in STEP 7.

### EXAMPLES OF SHARE DIVISION

	SHARE HOLDERS	DIVISION OF SHARES	OWNERSHIP OF COMPANY
Example 1	A.Smith	25,000	50%
	M.Jones	25,000	50%
Number of shares issued: 50,000			
Example 2	A.Smith	30,000	60%
	M.Jones	15,000	30%
	S.Brown	5,000	10%

Number of shares issued: 50,000

You should pay up a minimum of a 1/4 of your shareholding to the company. This can be in cash, assets or equipment. The balance can be paid at any time and is owed to the company if not paid.

## STEP 7 SHAREHOLDERS

There may be as many shareholders as you like, with a minimum of two. You must insert the full Name and Address of each shareholder in the LIST OF SHAREHOLDERS below. Please continue on a separate sheet if necessary. You must also enter the number of shares issued to each shareholder. STEP 6 describes how to do this.
