

TRADE MARK WATCHING SERVICE

Once you have a Trade Mark Registered you need to know promptly if someone is attempting to copy it. You need to be supplied with as much information as possible about the offending mark so you can lodge the appropriate objection in plenty of time. Every single trade mark in every journal in the world can be looked at to monitor your mark as some countries allow registration of marks already registered in other countries. If a similar application is made in say Arabic, it is difficult for anyone to notice the 'copier' since the alphabet and style would appear different. We therefore translate all marks and reports into English to ensure nothing is missed.

TRADE MARK DIRECTORY SERVICE
